Discover the possibilities: How ManageBac Supports the Diploma Programme

#MBforDP

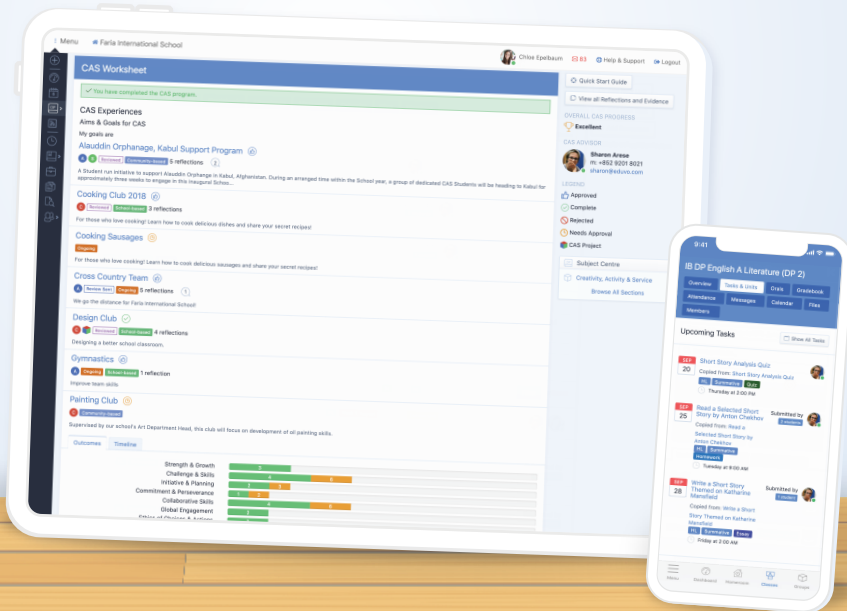

ManageBac for the DP

IB Diploma

DESIGNED FOR THE INNOVATIVE IB DIPLOMA PROGRAMME

- ✓ Instantly see where your students stand with the Diploma Core (CAS, EE, TOK).
- ✓ Our DP unit planner based on the third IB sample planners.
- ✓ Automate your IBIS registration instead of spending hours on manual data entry.
- ✓ Record individual orals and manage IA requirements for Groups 1, 2, 4 & 6.
- ✓ Improve school-to-home communication with students & parents.

Managing the Diploma Core

Instantly see where your students stand and track progress with CAS, EE and TOK using IB guide requirements in ManageBac.

Easily log CAS reflections on-the-go with our mobile app, available on iOS and Android.

Centralize your master academic calendar alongside key IB deadlines to enable effective planning and to keep students, staff and parents informed of key deadlines with automated reminders.

Students can easily add and reflect on CAS experiences while tying them to the 7 CAS learning outcomes.

IB DP coordinators can seamlessly submit CAS experiences for IB moderation with one click.

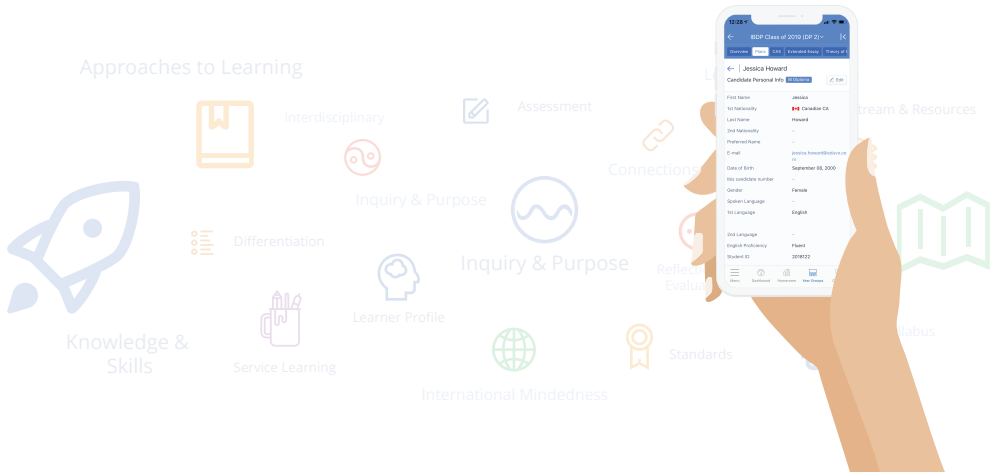

With built-in prescribed titles & assessment rubrics, students can collaborate on the TOK presentation while teachers can organise presentation evaluation comments.

Simplify Exam Registration with One Click!

One-click Exam Registration: No more manual data entry! Streamline exam registration with direct IBIS integration for Anticipated, Course and Full Diploma candidates.

Personalised Exam Calendars: Set exam proctors, room locations and times. Personalized exam calendars are built automatically and made accessible on ManageBac Web and ManageBac for Mobile.

Invoicing & Security: Generate invoices for parents in bulk and securely distribute IBIS PINs to candidates.

Education Partner: *High Five*  SMARTPREP

SMARTPREP IB App Power Your Learning On-the-Go

3,600+ flash cards

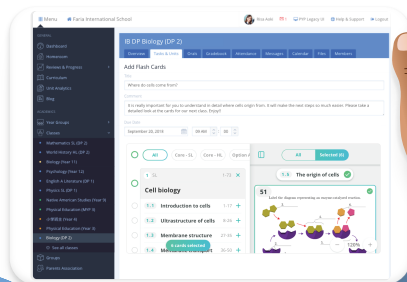

6,000+ questions with answers

100% IB DP syllabus coverage

The SMARTPREP Classroom is everywhere, all the time

We love making things easy. No matter where you add Exercises in your Streams, they will all appear to your students in the SMARTPREP Classroom within the SMARTPREP IB App. And because the SMARTPREP mobile web app is designed to work on any device, your students can study anywhere and anytime, on their phone, tablet or computer. The web app is like having a personal tutor in your pocket.

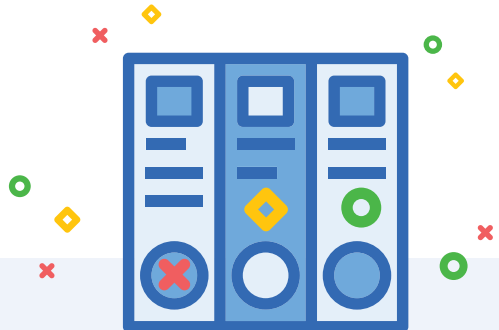

Integrated Learning Platform

Our unique curriculum-specific design allows teachers to collaboratively share curriculum, resources, and tasks, while differentiation is supported seamlessly within mixed HL & SL classes. Teachers can create assignments, annotate student work through the Vantage Reader, embed resources, and record feedback. Our integration with Turnitin allows teachers to check coursework for academic honesty. ManageBac allows academic progress to be visible to students & parents, now on-the-go with ManageBac Mobile, available on iOS and Android.

Designed on the 3rd model template, the DP unit planner allows you to collaboratively organise and plan your curriculum with resources.

- ✓ The DP unit planner has built-in course criteria, subject, aims, and syllabus content.
- ✓ Centralised curriculum planning makes it easy to organise coverage of topics and eliminate paperwork.
- ✓ ManageBac is the only learning platform in the world with over 600+ curriculum, academic and accreditation standards including local, state and national standards.
- ✓ Collaboratively create, edit and share unit planners across year levels and subjects in real-time.
- ✓ Browse whole-school curriculum and analytics to build interdisciplinary connections and identify gaps.
