École Mondiale World School

MUMBAI, INDIA

Established in 2004 in the Mumbai suburb of Juhu, École Mondiale World School is an international school offering three IB programmes: the PYP, MYP and DP. The school is also authorised to teach the IGCSE and delivers all of its programmes — from Playschool to Grade 12 — in English.

The school's integrated, interactive approach encourages students to take an active part in their learning.

Why ManageBac?

Part of École Mondiale's academic philosophy involves using technology to create a strong student-teacher-parent interface. This also helps the school carry out its interactive educational approach. École Mondiale handles communications about academic programmes, reports, assignments, assessment, attendance and more through ManageBac.

Implementing ManageBac

Before implementing ManageBac, École Mondiale teachers relied on hard copies of assignments, folders, e-mails and USB sticks to manage their classes. This made it difficult to keep track of submission dates, involve parents, monitor student progress and maintain records.

In 2011, the school trialled ManageBac for the Diploma & Middle Years Programmes, as well as for Reports and Attendance. When they decided to go forward with the system, Technology Coordinator Farah Misquitta spearheaded its implementation. Farah worked with ManageBac staff to smooth the transition from paper to digital and create virtual classrooms that are accessible anytime, anywhere. In 2014, the school expanded its use of ManageBac to the Primary Years Programme.

Teachers now comfortably use ManageBac's integrated dropbox to monitor submissions, maintain student records, and centralise teaching resources and files.

“

ManageBac has been the backbone of an improved and effective learning management system at École Mondiale. It seamlessly integrates information concerning all stakeholders of the school community by simplifying the workflow and boosting efficiency.

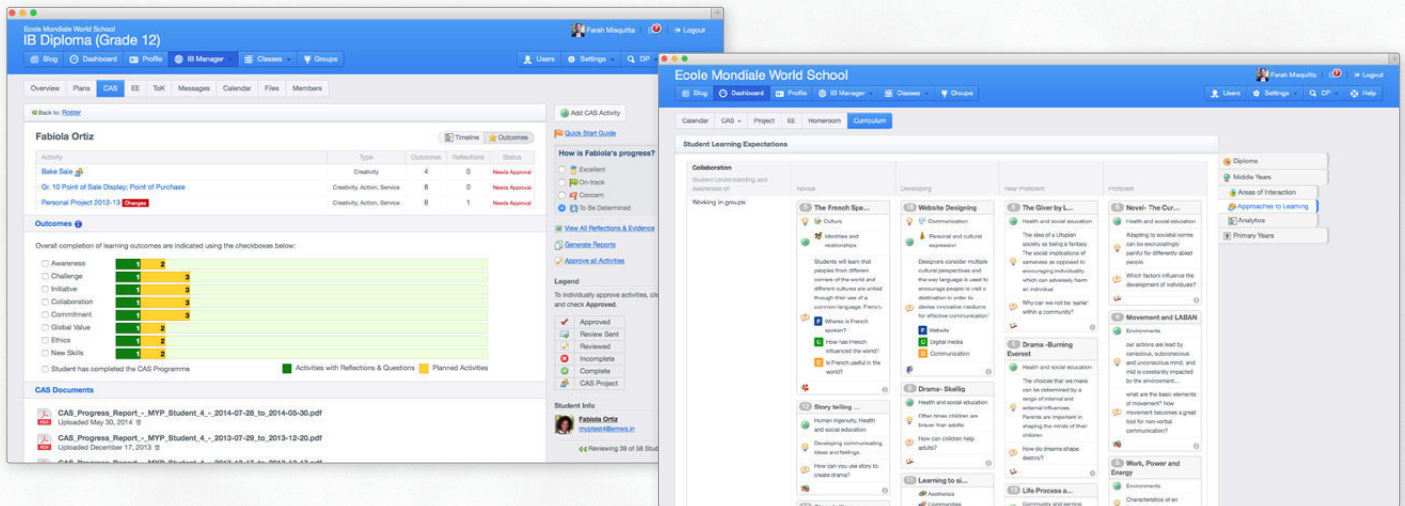

”

Farah Misquitta

Technology Coordinator

Benefits of ManageBac for:

École Mondiale Teachers

Teachers use ManageBac to document curriculum planning, communicate with parents, manage assignments, plan units and more.

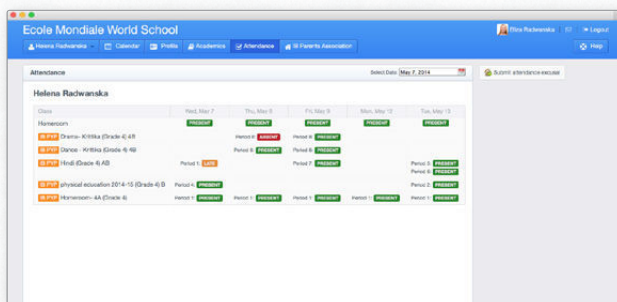

DP administrators say that ManageBac's reflections journal, CAS progress reports, and supervisor review platform have made CAS management easy and transparent.

MYP Coordinator Monica Sarang says the system has an efficient repository for record-keeping and makes teachers' jobs easier as it is "extremely effective, user and eco-friendly," adding that ManageBac is a "good communication tool."

École Mondiale also uses ManageBac's curriculum planner to monitor AtL coverage and oversees Personal and SA Projects through the system's dedicated management platforms.

“ Since we introduced ManageBac, there have been benefits for students, parents and teachers. Students have become much more independent with their learning, lines of communication regarding student work have been established with parents and teacher planning has become a lot more streamlined. ”

Grant Rogers
Head of Secondary

École Mondiale Students & Parents

With ManageBac, parents can monitor their child's academic progress through the Academics tab, receive notifications about assignments and attendance, and view reports in real time.

Students say that using ManageBac's calendars, online journals and resources tools have helped them with time management, deadlines and organisation.

About ManageBac

ManageBac is the leading planning, assessment and reporting system for IB World Schools founded by three former IB Diploma students in 2007.

Today, ManageBac is the trusted choice of 4 in 5 IB Diploma students at over 2,000 leading schools.
